President Trump is trying to rewrite history when it comes to China and COVID-19 — but the facts don’t back him up. Tony Blinken was the Deputy Secretary of State and is one of my top foreign policy advisors. He’ll explain.

In 2015, Dr. Fauci gave $3.7M to the level 4 bio-lab in Wuhan.

In 2017, Dr. Fauci said there was “no question” a surprise outbreak would take place under Trump.

And now he’s ignoring a cheap & safe cure for COVID-19 (HCQ) while pushing for untested vaccines.

I joined @SenateDems on a call with the @VP today to discuss our federal COVID-19 response. They still don’t have a plan. The administration doesn’t even have a target number of tests we need to manage this health care crisis. It’s beyond unbelievable.
Gov. Whitmer on protests: "The odds are very high they're spreading COVID-19 ...It's that kind of irresponsible action that puts us in this situation where we might have to actually think about extending stay-at-home orders, which is supposedly what they were protesting." @maddow

I sent a public records request to Florida Governor Ron DeSantis asking for all documents regarding his handling of COVID-19. He is obligated to answer soon under Florida sunshine law. We are expecting a treasure trove of damaging information.

Rachel Maddow MSNBC ☑️ @maddow • Apr 17

“17 of the 18 coronavirus deaths in Westmoreland County, Pennsylvania are people who came from just 3 nursing homes. The nursing homes have not been publicly identified — and there’s no state or federal requirement for the facilities to do so.”

Nursing homes don’t have to disclose COVID-19 cases. Some went that changed.
