When gently corrected by one of the astronauts about how other women have spacewalked, Donald Trump uses his middle finger to "fix" his hair.

How is this even real life?

I watched this live. Prior to this clip? (I hate Trump) he was doing the same thing: wiping sweat from dripping. It was very hot that day. One difference? He did NOT use his middle finger prior but whatever. He's an ass but I just hate us getting stuck on maybe.not.true.stf

He is trying to overturn the result of the 2016

Why are Nancy Pelosi and Democrats
