Communication
Email is the best way to communicate with me, and you can expect a response within 24 hours. If you need to call, please do so before 8pm. I will be available before and after class to answer any questions.

Blackboard Site
A Blackboard course site has been set up for this course. Each student is expected to check the site throughout the semester, as Blackboard will be the primary venue for outside classroom communications between the instructors and the students. Students can access the course site at https://blackboard.gwu.edu. Support for Blackboard is available at 202-994-4948 or helpdesk.gwu.edu.

Academic Integrity
All members of the university community are expected to exhibit honesty and competence in their academic work. Students have a special responsibility to acquaint themselves with, and make use of, all proper procedures for doing research, writing papers, and taking exams. Members of the community will be presumed to be familiar with the proper academic procedures and will be held responsible for applying them. Deliberate failure to act in accordance with such procedures will be considered academic dishonesty. Academic dishonesty is defined as “cheating of any kind, including misrepresenting one’s own work, taking credit for the work of others without crediting them and without appropriate authorization, and the fabrication of information.” Acts of academic dishonesty are a legal, moral, and
intellectual offense against the community and will be prosecuted through the proper university channels. The University Code of Academic Integrity can be found at http://studentconduct.gwu.edu/code-academic-integrity.

Support for Students with Disabilities
GW’s Disability Support Services (DSS) provides and coordinates accommodations and other services for students with a wide variety of disabilities, as well as those temporarily disabled by injury or illness. Accommodations are available through DSS to facilitate academic access for students with disabilities. Please notify your instructor if you require accommodations. Additional information is available at https://disabilitysupport.gwu.edu/.

In the Event of an Emergency or Crisis during Class
If we experience some an emergency during class time, we will try to stay at this location until we hear that we can move about safely. If we have to leave here, we will meet in front of the Marvin Center’s entrance on H Street in order to account for everyone and to make certain that everyone is safe. Please refer to Campus Advisories for the latest information on the University’s operating status: http://www.campusadvisories.gwu.edu/.

Attendance Policy
I expect you to be in every class and on time. I will take attendance at the start of every class. If you do have a legitimate excuse, please let me know as soon as possible. If you have more than three (3) unexcused absences during the semester, you will receive a failing grade in class participation (or 15% of total course grade.)

Late Policy
I expect every assignment to be turned in on time; for every day an assignment is late, your grade for the assignment will drop by one letter.

Out-of-Class/ Independent Learning Expectation
Over the course of the semester, students will spend at least 2 hours (100 minutes) per week in class. Required reading for the class meetings and written response papers or projects are expected to take up, on average, 7 hours (350 minutes) per week. Over the course of the semester, students will spend 25 hours in instructional time and 87.5 hours preparing for class.

Course Evaluation
At the end of the semester, students will be given the opportunity to evaluate the course through GW’s online course evaluation system. It is very important that you take the time to complete an evaluation. Students are also encouraged to provide feedback throughout the course of the semester by contacting any/all of the following:

THE COURSE

Course Description and Overview

Is big data the panacea for today’s electoral challenges? Students will learn how to use big data to target voters in electoral and issue advocacy campaigns, learning how to shape communications to a target universe. This course will focus on three areas: email list building, persuasion and turnout. For each of these topics, students will learn how to pull lists from the voter file, manage them in Excel and identify the best mediums to reach a target universe.

Course Learning Objectives

1. Understand the main strategies and tactics of campaigns, paying close attention to how targeting and analytics can further those actions.
2. Understand how polling dictates messaging, persuasion and outreach.
3. Understand how voter contact impacts on-the-ground campaign decision-making.
4. Appreciate the uniqueness of a presidential campaign and understand the impact of the Electoral College on campaign decisions.

Course Requirements

Grades will be based on the following:

- **In-class assignments:** 25%
  During various classes (announced in advance), students will complete partnered computer assignments utilizing the voter file. One student will be in Excel while his/her partner will be using Word to documents their work and findings.

- **Three short reaction memos:** 25%
  Each student will write three (3) reaction memos based on select weekly readings. These memos should be between (1500-2000) words in length and will be due at the beginning of class. Students should provide a detailed critical analysis and personal perspective on the compelling arguments found within the weekly readings.

- **Final presentation:** 35%
  As a final presentation, students will have to develop and present a campaign plan showing an allocation of resources. In other words, students will need to show where and how the campaign’s money is being spent based on their base and persuasion universes.

  This final presentation will consist of two (2) parts: a (1500) word written memo outlining the proposed plan of action (worth 20%), and a PowerPoint presentation (worth 15%) that each student will use to defend his/her thoughts/perspectives in front of their peers and some of our guest speakers. Final memos will be due on Monday, May 1st, and presentations will take place on Monday, May 1st and Wednesday, May 3rd. These presentations should be no more than 15 minutes in length and after you present, I will open the floor to discussion and questions.

- **Classroom participation:** 15%
  I expect students to attend class and come prepared to discuss the assigned readings. Additionally, it will be important that students stay up to speed on current political issues and trends, especially as they relate to the 2017 Virginia and New Jersey Governor races.
Following is the grade scale for all GSPM classes:
